About Me

My Work

Contact

My name is Celines Flores and I was born June 2, 1996.
I live in New York City in a Borough called the Bronx. My
first experience with any type of digital designing was
when I attended high school. This one Graphic Design
class was the reason that I decided to major in Graphic
Design at Finger Lakes Community College in the hopes
of preparing myself for a career I could enjoy and so far,
I'm starting to see that I made the right choice.
